

SAFETY CAPABILITIES

WERNER ELECTRIC

SOLUTION • SUPPLY • SUPPORT

Werner Electric can help you identify potential safety hazards and be your one stop shop for machine, people, and property safety training, services, compliance and solutions.

WHY

Werner Electric knows that workplace safety and the protection of your people, machines and property is critical to the success of your business. Planning, training and having the right solutions in place can ensure you don't experience:

- Workplace injuries or fatalities
- Loss of productivity or service standards
- Additional supervision time and administrative costs
- Labor and overtime costs
- OSHA fines
- Building or vehicle damage
- Equipment damage
- Recruiting, hiring and training replacement
- Loss of business or goodwill

CAPABILITIES

Werner offers a comprehensive portfolio of safety solutions, services and training to protect all of your investments. Our automation, lighting and electrical experts can assist in evaluating potential hazards and risks to find the right solution for you – your people, machines and property.

- Lighting audits for emergency egress escape paths
- Interior and exterior lighting level analysis
- Lighting site audit for hazardous re-lamping or maintenance procedures
- Arc flash, safety and risk assessments
- Customized lockout/tagout (LOTO) and arc flash mitigation training

PEOPLE

Your people are your most valuable assets and highest liability potential. Ensuring a safe work environment is your most effective way to develop a strong safety culture, and mitigate both direct and indirect costs resulting from a workplace accident.

Our safety solutions include:

- Personal protection equipment
- Safety training
- Machine safety
- Process safety
- Hazardous energy control services
- Harsh duty environment solutions
- Emergency lighting

Learn more about how Werner Electric can help you.

MACHINE

Numerous studies show that companies adopting a holistic approach to safety - including cultural, procedural, and technical elements – achieve 5%-7% higher Overall Equipment Effectiveness (OEE), 2%-4% less unscheduled downtime, and less than half the injury rate of average performing companies. We offer a broad scope of services, trainings and product solutions resulting in safer machines, longer operation life-cycle, and fewer costly repairs.

Safety Training

- Arc Flash NFPA70E - Affected and Aware
- Machine safety
- Functional Safety TUV Certification (TUV Rheinland)

Lockout/Tagout (LOTO)

- Assessment
- Procedures
- Annual audits
- Scan/ESC software

Consulting

- Risk assessments
- Circuit validation
- Alternative de-energization procedures
