

PROCESS CONTROL SOLUTIONS

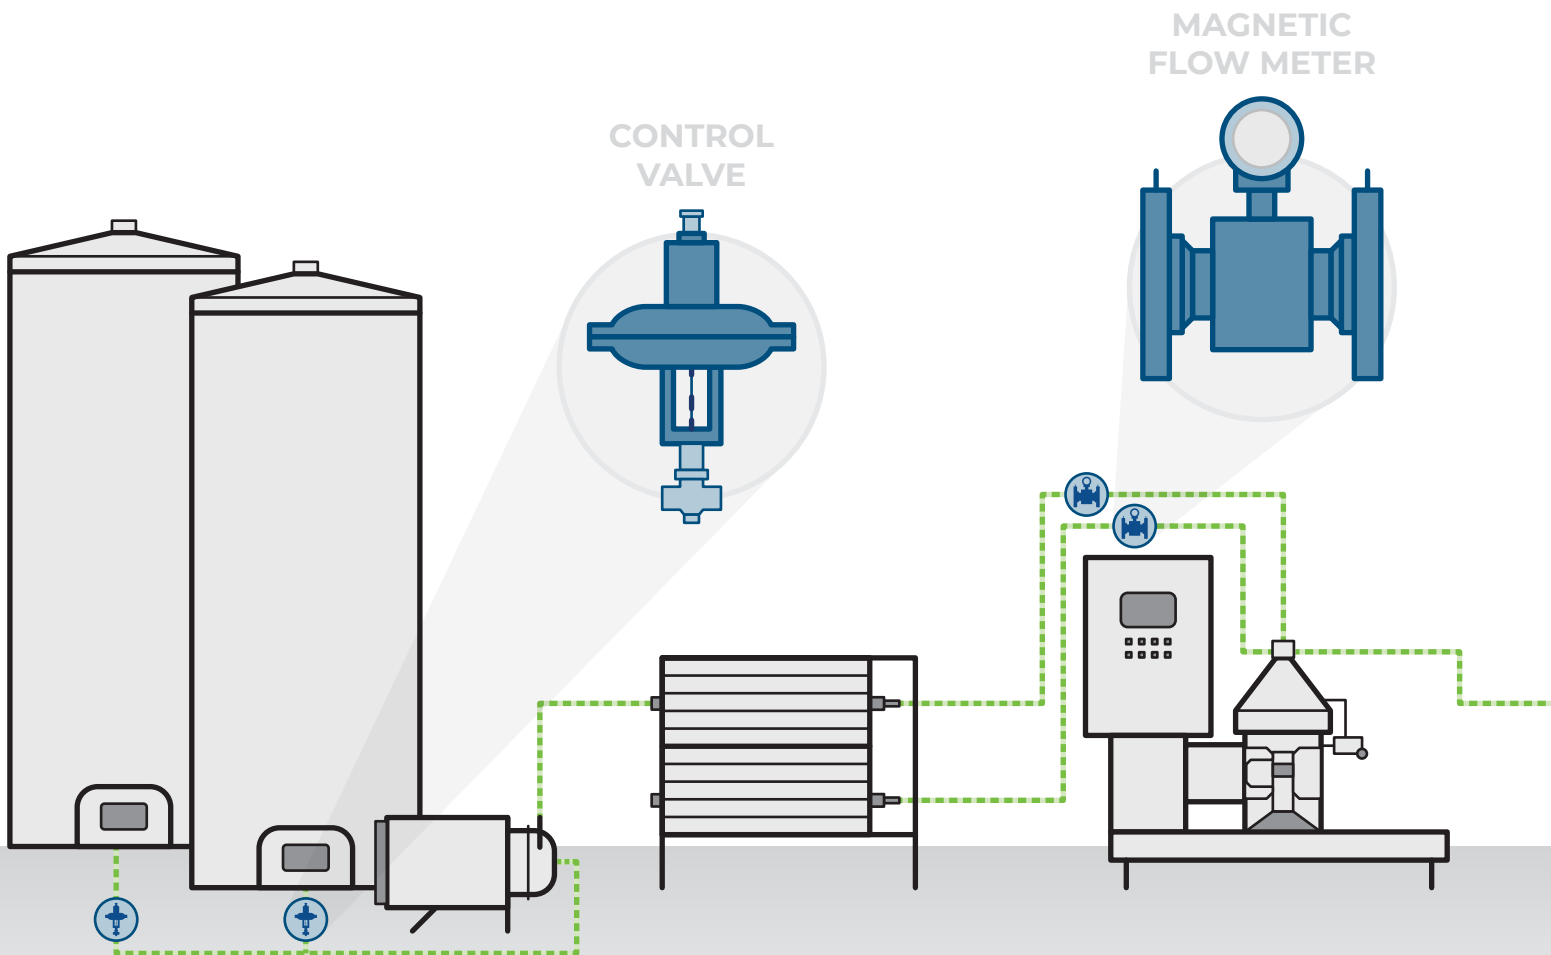

Our specialists can help seamlessly integrate Smart Components within your system to help you meet customer demands and stay ahead of the competition.

WERNER ELECTRIC KNOWS PROCESS

We are a provider of process management products and solutions including control systems, valves, instruments, and software that can help you implement an integrated process solution with the industry's leading technology.

PROCESS CONTROL

To succeed in today's competitive market, we understand that you must deliver the right solution on time, every time, while maximizing uptime and reducing production costs. Werner Electric has partnered with Rockwell Automation and their Encompass Partners to provide complete process control solutions. We have provided control systems for process applications for decades and are now expanding that expertise to instrumentation and final element control to provide a complete solution for your process control applications. Werner Electric is able to provide front-end engineering and design for your most challenging projects to overall project management through startup.

CAPABILITIES

PlantPax - The Modern DCS

Connected Enterprise

Energy Management

Valves

Instrumentation

Asset Management

Batch

Safety Instrumented Systems

PRODUCTS

Instrumentation

- Temperature
- Level
- Pressure
- Flow
- Weight
- pH
- Conductivity/Gas
- Analyzers

Final Control Elements

- Control Valves
- Actuators
- Positioners

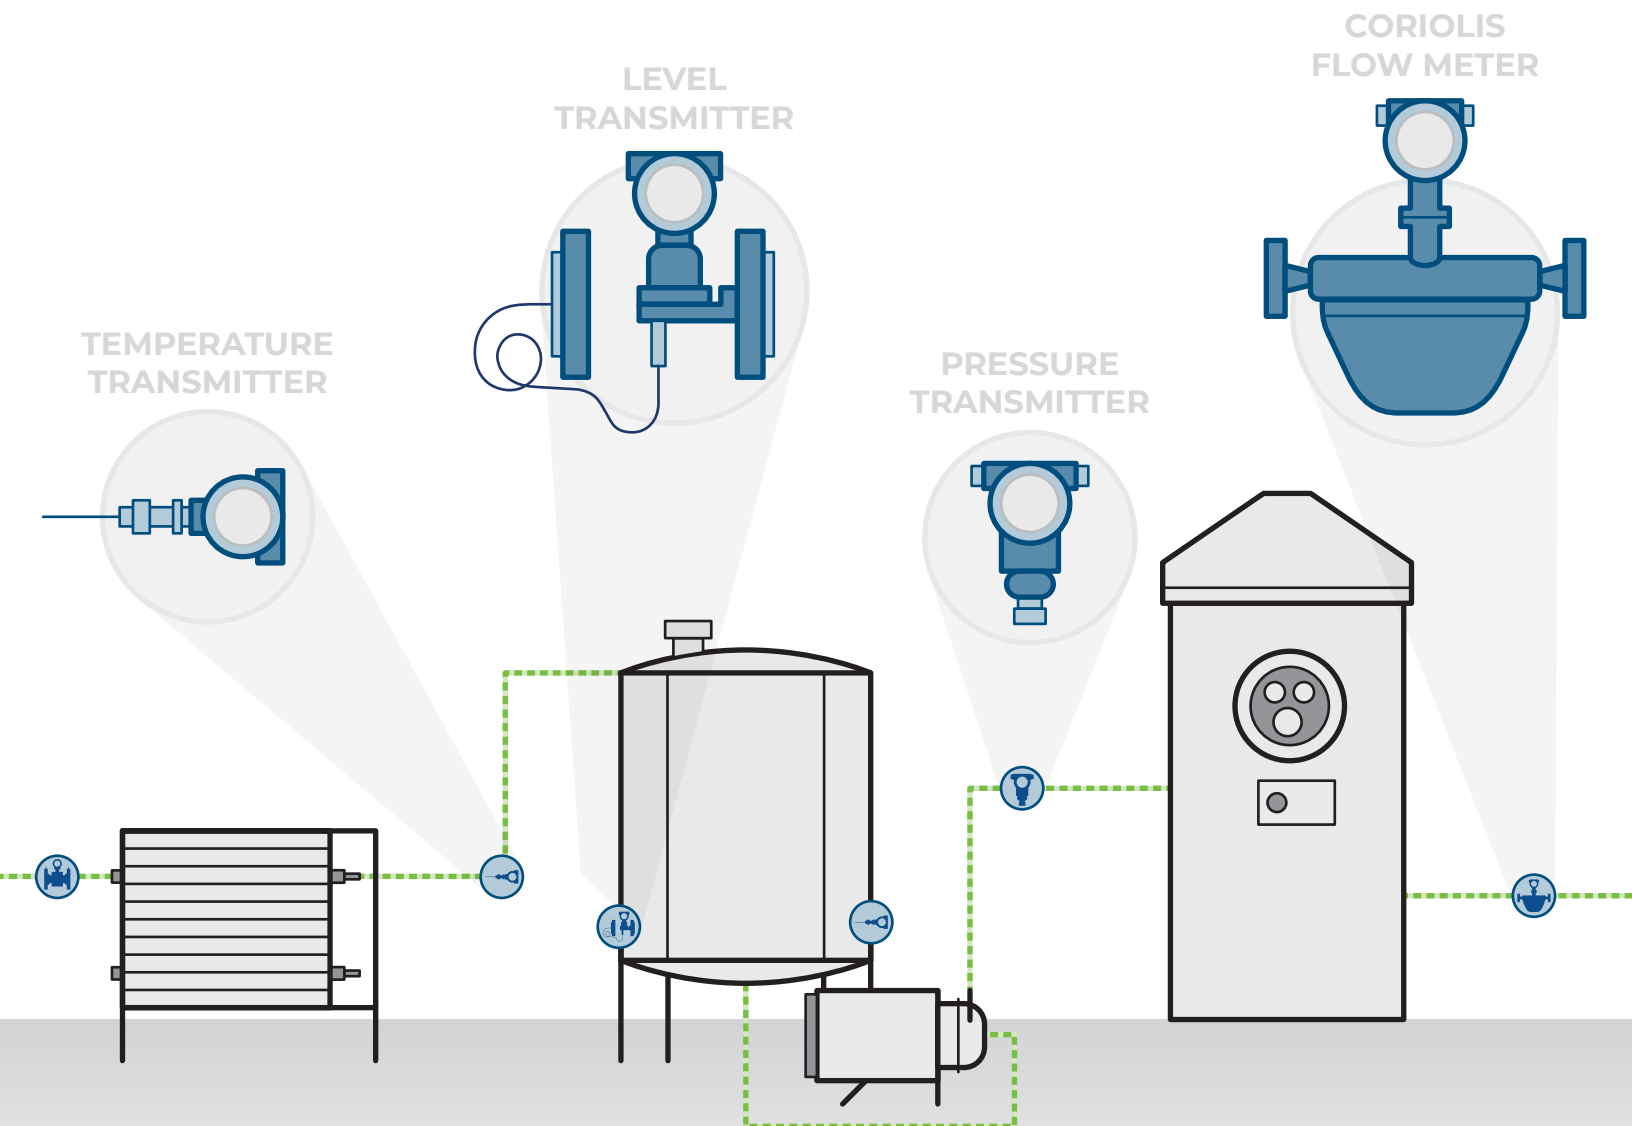

Hazardous Locations

- Intrinsically Safe Barriers
- Explosion Proof Components
- Purged Panels

Safety Instrumented Systems

Software Solutions

- PlantPax Modern Distributed Control
- Batch Control and Management
- Process Optimization
- Material Tracking
- Model Predictive Control
- Loop Tuning

PARTNERS

Badger Meter

- Flow Instrumentation & Valves

Burkert Fluid Controls

- Instrumentation & Valves

BinMaster

- Level Instrumentation

Control Station

- PID Diagnostics & Tuning Software

Hardy Instruments

- Process Weighing & Control Modules

Helm Instruments

- Strain Gage, Force & Press Controls

Krohne

- Instrumentation

MTS

- Liquid Instrumentation

Pepperl+Fuchs

- Intrinsically Safe Barriers
- Purge Panel Accessories

Prosoft Technologies

- Communication Interfaces & Wireless Solutions

Pyromation

- Process Temperature & RTD

Red Lion

- PID Controllers

Rockwell Automation

- Process Control Systems & Services
- Asset Management
- Process Optimization
- Thin Client Management & Mobility Solutions
- Trusted
- AAdvance
- OptiSIS

Setra

- Instrumentation

Spectrum

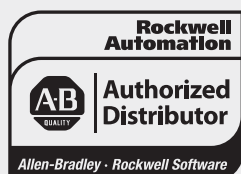

- Communication Interfaces & Wireless Solutions

Stratus Technologies

- High Available & Fault Tolerant Servers

WIN-911

- Remote Alarm Notification Services
